

US Oil Sands Inc. Grant of Warrants

February 6, 2012 – Calgary, Alberta – US Oil Sands Inc. (“US Oil Sands” or the “Company”) (TSXV: USO.V), wishes to announce that further to its press release dated December 5, 2011 and the announcement of the approval of the TSX Venture Exchange of the terms of the Company’s engagement agreement (“EAS Agreement”) with EAS Advisors LLC (“EAS”), the Company has issued 500,000 additional warrants to EAS with respect to services provided by EAS for the period from October 1, 2011 through December 31, 2011. Each warrant entitles the holder thereof to acquire a common share of US Oil Sands at a price of \$0.40 per common share with an expiry date of June 30, 2013.

The terms of the EAS Agreement include the issuance of a total of 2,000,000 warrants for the purchase of common shares of the Company. The warrants are to be issued quarterly during the one-year term of the agreement.

About US Oil Sands Inc.

US Oil Sands is engaged in the exploration and development of oil sands properties. The Company, through its wholly owned US subsidiary, has a 100% interest in bitumen leases covering 32,005 acres of land in Utah.

US Oil Sands plans to develop its oil sands properties using its proprietary extraction process. This process is an efficient and environmentally responsible approach to oil sands development. Using a bio-solvent, US Oil Sands is able to separate bitumen from oil sand without the need for tailings ponds. The process requires low energy input, recycles 95% of the water used and uses best practice mining methods to rapidly reclaim mined areas. US Oil Sands has received a permit to construct the PR Spring Bitumen Mining commercial project on its Utah property and is currently in the final design stage targeting first production in 2013.
